HONDA ENGINES

- MH200 Honda 20 HP Gas Engine E/S

Don't be fooled by replacement engines that look the same. If you do not get the exact same spec number you may get an engine that has an incompatible charging system, governor, or shaft size.

Hydro Man Tip:

Check oil daily! Even though our engines have low oil sensors, don't wait for them to activate to remind you to add oil. Use the convenient oil drain valve to change the oil regularly.
