

The **RPVRE1 (PVR)** is a portable vacuum recovery system that protects the environment by eliminating wash water run off and complies with EPA / governmental storm drain regulations. The PVR is a unique self-contained closed loop system with pretreatment for solids and oil separation. This system processes 8gpm on a continuous flow basis without delays and offers a quick purge dump for collected solids. The reusable filters allow the operator quick and easy maintenance for continuous performance. The PVR is an economical and effective portable vacuum and filtration system for mobile washers, auto detailers, fleet washers, floodwater removal or anyone needing to recover wastewater. (Recovered water should be at or below 200 ° F)

PROCESS SYSTEM

PUMP	(2) 4.8 gpm, positive displacement pumps, 9.6 gpm open flow
PUMP POWER	115vac / 3.0 amp, Lighted Switches
LEVEL CONTROL	Float activated automatic level control

SEPARATOR TANK

HOPPER	Polyethylene, Conical Slant Bottom, 16 gallon capacity
SOLIDS SEPARATION	Gravity Separation with sludge / solids drain
PORTABILITY	Designed for portable operation and mobility

VACUUM

VACUUM MOTOR	2 stage, 106.7" sealed vacuum, 112 cfm
VACUUM POWER	115vac / 11.4 amp, Lighted Switch
VACUUM HOSE	2.0" x 50' industrial ribbed
PICK UP DEVICE	(2) 10' Sand dam barriers with stainless steel scupper

FILTRATION

BAG FILTERS	Solids strainer filter, 400 micron bag
CARTRIDGE FILTER	Pleated, Polyester, 4.5" x 20" , 20 Micron
REPLACEMENTS	Spare Cartridges: 20m (#VFH07), 400 micron bag filter (#VFB40)
WARRANTY	One Year - Accessory Warranty
WEIGHT/DIMENSIONS	91 lbs. (unit only), 119 lbs. (including hose, berms) – 21" x 25" x 55"

Features and Benefits:

- ✓ Meets Current EPA and Storm Drain Regulations
- ✓ All Stainless Steel Frame for Corrosion Resistance
- ✓ Compact Design for Versatility and Portability **<100lbs**
- ✓ Wet / Dry Vacuum - Transfers up to 200' Away
- ✓ Solids Separation / Water Polishing to 20 Micron
- ✓ Reusable Filters for Easy Maintenance
- ✓ 120v 15amp with 35' GFCI cord (or power with 4000w generator)

Includes...

(2) Sand Dams, 50' Pick-Up Hose, Scupper

Optional Accessories:

12" Twister Vac (ANT12), 22" Twister Vac (ANTV3)
 5 micron bag filter/mount (VFFA5)
